MAY 9 1986

OFFICE OF
PESTICIDES AND TOXIC SUBSTANCES

MEMORANDUM

SUBJECT: HED Response to Expedited Review of Triclopyr

TO: Doug Campt, Director
Registration Division

This is in response to your expedite memorandum dated May 2, 1986 whereby you requested review of (1) an experimental use permit for aquatic-site use of Garlon 3A Herbicide (Trichlopyr), (2) temporary tolerances/food additive petitions and (3) a protocol for an aquatic dissipation study. You had requested that review of this data be completed by 5/16/86.

HED (Exposure Assessment/Residue Chemistry/Toxicology Branches) anticipates review of this data by 5/16/86. The Ecological Effects Branch plan to provide sufficient information for RD to make a decision by 5/16/86. The complete review will be provided shortly thereafter.

If you have any additional questions concerning the status of this action, please contact Joan Moyer or Judy Heckman of my staff. They may be reached at 557-0465.
